

# Support for educational leaders to advance equity in our schools

The 21st Century School Leadership Academy (21CSLA) is dedicated to the professional learning and support of California's educational leaders (teacher, site, and district) to improve campus culture and climate, create more equitable learning environments, and ultimately expand success for underserved students. With funding from the California Department of Education, we provide high-quality, equity-centered professional learning for educational leaders of schools and districts in California that receive Title II funds.

**"It meant so much to have this space, to share and hear other site leaders' struggles, and be honest about the challenges we are facing. In fact, this has been the only place I could be vulnerable for the last several weeks."**
