## 2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2022-23 School Overview

Welcome Cheetahs and Parents:

Madera County Independent Academy welcomes all of you to the 2022-2023 school year. MCIA students, family and staff endured some unforeseen challenges last year, but it was great to see everyone working together to ensure students felt safe and continued to grow academically. Some important lessons learned from last year are the need to continue building strong relationships with all families and community members, as well as providing access to technology to all students. MCIA values all students, and students working regularly with technology will lead to greater academic success. MCIA wants to assure all students and families that the entire MCIA staff has worked diligently to prepare for this school year, and everyone at MCIA is excited to have you as part of the Cheetah Family.

MCIA will continue providing a challenging curriculum, social emotional support, and external learning opportunities for all students both in groups, and individually. MCIA encourages all of you, students and parents, to communicate any ideas to make MCIA a better school. Field trips and other school activities will extend learning beyond the classroom, and these rewarding opportunities are available for all students. Additionally, MCIA invites all parents to join advisory groups or committees, such as SSC ELAC, and DELAC, which allow for valuable input and contribute to the best learning opportunities for your child.

Thank you for entrusting the MCIA staff with your child. This school year will fly by, and soon it will be time to decide which school to attend next year. Although MCIA would like for your child to stay with this program, our goal is to ensure all students are successful at any school they will attend. Meanwhile, there will be many fun and engaging opportunities to learn in a safe learning environment. If there is anything MCIA staff can do to support your child's academic success, please share your ideas.

The instructional method at Madera County Independent Academy (MCIA) will emphasize the whole child and frame its academic components with individualized lessons, allowing each child's full potential to unfold. The goal of the MCIA staff is to broaden the educational choices and opportunities for students and families who live in Madera County and adjacent counties. MCIA will accept applications for enrollment from any student qualified by the State Charter School Law. The targeted student population consists of educationally disadvantaged students of grades kindergarten through grade eight. Students who attend Madera County Independent Academy come in search of an alternative educational model and benefit from one-to-one instruction, as well as small cohort instruction to provide opportunities for greater flexibility and individualized instruction. The

## 2022-23 School Overview

goal for every student is to develop the academic and social skills to be successful in any educational setting.

Regards,

Hugo Sánchez  
Program Director

Mission:

The mission of the Madera County Independent Academy (MCIA) staff is to broaden the educational choices and opportunities for students and families who live in Madera County and surrounding areas. The instructional method will emphasize the whole child and frame its academic components within an artistic, creative, and imaginative context allowing each child's full potential to unfold.

Vision:

The vision of the MCIA staff is for all students to be self-motivated, competent, life-long learners, to improve employability of youth by high school completion, and to encourage post-secondary education.

Schoolwide Learner Outcomes (SLO's)

Our three Schoolwide Learner Outcomes accurately reflect a wide range of view points.

Our students:

- are proficient thinkers, who can transfer skills to new situations, using logical reasoning to make decisions in their own life, and communicate effectively in a variety of situations.
- exhibit motivation, discipline, respect, compassion, and a connection to their community in order to promote life-long learning and life improvement.
- feel a connection to their school and a commitment to enhancing their school learning experience.

2021-22 data was not included as part of the initial release of data on 1/13/23. The CDE has indicated that the data will be available after the 2/1/23 SARC deadline. The data will be populated when it is published by the CDE.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

## School Facility Conditions and Planned Improvements

Madera County Independent Academy moved to their current location six years ago, and is using about 8,000 sq ft of the 12,500 sq ft building. The size of the building allows for access to academic counseling services, student technology pods, along with areas for individual appointments with students and teachers, as well as classroom settings. There is a conference room on-site that allows for professional development opportunities for teachers and other staff. The facility is clean, safe, and allows for growth of our dynamic program. MCSOS Maintenance and Facilities staff ensures daily cleaning and sanitation, as well as resolving items requiring repairs.

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**  
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

#### Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
<b>English Language Arts/Literacy</b> (grades 3-8 and 11)	N/A	12	N/A	13	N/A	47
<b>Mathematics</b> (grades 3-8 and 11)	N/A	0	N/A	0	N/A	33

## 2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

#### 2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

#### 2022-23 Opportunities for Parental Involvement

Madera County Independent Academy views and values parental involvement as an essential component to every student's education. The greater the parental involvement in the student's education, the greater the likelihood that the student will be successful in school and after graduation. Every year, MCIA hosts Parent-Teacher Conferences and Family Appreciation Days with extended hours during the day to create more opportunities for parents and guardians to meet with their child's teacher and Leadership team members. Surveys (English or Spanish) are collected from all parents to gather data to better guide decision making in targeted program improvements. Additionally, parents are invited to participate on the CAES shared School Site Council (SSC), where they can contribute to establishing policies, supporting budget decisions and allocation of resources to increase student achievement. Parents are also urged to participate in stakeholder meetings to update the Local Control Accountability Plan (LCAP). MCIA hosts student of the month recognition events monthly, promotion ceremonies, and family appreciation weeks; allowing parents to support their children and contribute to a positive and productive school culture and community. To increase parent participation, MCIA uses ParentSquare to inform parents of school and community events and to share information relevant to their children.

#### State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

## Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

## 2022-23 School Safety Plan

The Safe Schools Plan is updated annually. During the school year, meetings are scheduled to review the plan to ensure its continued appropriateness and to make any necessary changes based upon recommendations. Members include administrators, teachers, school nurses, maintenance and operations staff, and parents. Contents of the Safe Schools Plan include, but are not limited to, the following: safe school strategies and programs, disaster and emergency response procedures, threat assessment protocol, school discipline procedures including suspension and expulsion recommendations, procedures for safe ingress and egress from school. A survey is provided to staff members in the spring. The analysis of the results assists the committee in the development of new goals and activities to promote a safe school environment. Drills are conducted regularly to practice emergency responses. Specific training includes Run, Hide, Fight to prepare staff for the appropriate response in the unlikely event of an active shooter situation. Updates to the plan including new goals, objectives and activities are reviewed with instructional staff. Safe Schools Plans are maintained at the sites and are approved by the Madera County Board of Education annually at the October 11, 2022, meeting.

## Professional Development

Madera County Superintendent of Schools (MCSOS) is committed to providing high quality professional development to its instructional staff including teachers, specialists, and instructional assistants. Eight full days were dedicated to professional development and instructional preparedness, and the remaining 8 days were the sum total of weekly professional development training conducted every Friday for 75 minutes. Specialists from MCSOS provided much of the professional development, which focused primarily on increasing student achievement in English Language Development to meet student proficiency in English/Language Arts and Mathematics, and the continued needs of English Learners. Another important component of professional development has teachers modeling research-based, effective instructional practices to the staff. Additionally, staff is encouraged to seek out professional development and conferences that address the most current research based instructional strategies especially for those students in alternative settings with low academic performance. For the 2022-23 school year, the LEA will partner with an outside educational agency to continue focusing on improved mathematics instruction and student achievement.

This table displays the number of school days dedicated to staff development and continuous improvement.
