Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed, unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision within the LCAP Federal Addendum Template.

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA’s LCAP, as it demonstrates the LEA’s efforts to support the state priorities.

The CDE emphasizes that the LCAP Federal Addendum should not drive LCAP development. ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA’s responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.
California’s ESSA State Plan significantly shifts the state’s approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state’s Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA’s plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA’s LCAP.

### Strategy

Explain the LEA’s strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA’s LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA’s broader strategy reflected in the LCAP.

**The LEA will use federal funds to enhance local priorities and initiatives by 1) Improving Basic programs operated by state and local educational agencies 2) Supporting effective Instruction and 3) Providing student support and academic enrichment grants.**

### Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

**All efforts will be made to align the programs funded by the state and federal funding.**
ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals, and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.

Describe how the professional learning system uses evidence based approaches such as focused, sustained learning that enables educators to acquire, implement, and assess improved practices. Data drives instruction and so should professional growth. Evidenced-based best practices should also drive the decision making process in which / what strategies should be implemented into a school system. Programs alone cannot solve the achievement gap for all students and should not be the driving force behind the decision making process.

Describe how the professional learning system facilitates the development of a shared purpose for student learning and collective responsibility for achieving it. A Professional Learning System (PLS) facilitates the development of a shared purpose for student learning by recognizing both strengths and weaknesses. In addition, the collective responsibility for achieving student success, must be shared by the entire school community; not merely the teachers. Focus on data should assist the targeted need for areas of improvement.

Describe the dedicated resources for professional learning and how they are adequate, accessible, and allocated appropriately toward established priorities and outcomes. All MCIA staff were given the opportunity at the beginning of the 2018-19 school year, their priority list of professional growth training. CAASSP results in ELA and Math, along with assessments for English Learners, indicated the need for target focus on improving student achievement. Finally, the CDE Dashboard from 2017-18 provided data in the indicators areas for immediate needs for improvement. As a result, the dedicated resources provided by MCSOS were: 1) Direct support from the County Office in Professional Development days allocated 5 times for the entire CAES division staff. In addition, MCIA Staff were provided every Friday a protected 7:30 – 8:45 a.m. time for academic data disaggregation, attendance and behavioral trend analysis.

Describe how the professional learning system contributes to a coherent system of educator learning and support that connects district and school priorities and needs with state and federal requirements and resources. The professional learning system contributes to a coherent system of educator training and support by connecting both MCSOS and MCIA priorities and needs with state and federal requirements.

Describe how the LEA evaluates its systems of professional growth and improvement and makes adjustments to ensure continuous improvement within these systems. The LEA evaluates the systems of professional growth with relevant staff feedback and data results from assessments tied directly to the training.
Prioritizing Funding
ESSA SECTION 2102(b)(2)(C)

THIS ESSA PROVISION IS ADDRESSED BELOW:

Describe the LEA’s process for determining Title II, Part A funding among the schools it serves. Because the CAES division consists of 4 schools serving various populations of students, training and professional development is determined by need by school population, data results and staff input.

In addition, describe how Title II funds will be used strategically with other funding streams to support CSI and TSI activities. MCIA serves a low performing 95%, socio-economically disadvantaged population. Title 2 funds will be utilized strategically to ensure the needs of our students are met with the appropriate training for our teachers.

Describe how the LEA meaningfully consults with stakeholders (teachers, principals, paraprofessionals, specialized support personnel, charter school leaders, parents, and community partners) regarding the prioritization of Title II, Part A funding for high needs schools. The LEA met with staff, stakeholders (teachers, principals, paraprofessionals, specialized support personnel, charter school leaders, parents, and community partners) to gather input regarding prioritization of funding through scheduled LCAP input meetings, SSC meetings, and staff PLC surveys, describing exactly what teachers were requesting support.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Describe the sources of data the LEA monitors to evaluate Title II, Part A activities and how often it analyzes this data. The LEA monitors and evaluated annually, the Title 2 – Part A activities and analyzes the data to modify for the following school year. Ongoing analysis includes immediate feedback from staff via surveys.
Describe the ways in which the LEA meaningfully consults with stakeholders (teachers, principals, paraprofessionals, specialized support personnel, charter school leaders, parents, and community partners) to update and improve Title II, Part A-funded activities. The LEA consults with stakeholders (teachers, principals, paraprofessionals, specialized support personnel, charter school leaders, parents, and community partners) via stakeholder input meetings, surveys and ongoing PLC-format meetings that welcome input / feedback.
